EDUCATION

B.TECH ELECTRICAL ENGINEERING

Ramkrishna Mahato Government Engineering College, formerly Purulia Government Engineering College

09/2017 - 07/2021

CGPA:8.01 of10

[Details](#)

- University:MAKAUT

HIGHER SECONDARY

DHANYAGHORI HIGH SCHOOL

2015 - 2017

[Details](#)

- Board: WBCHSE

SECONDARY

DHANYAGHORI HIGH SCHOOL

2010 - 2015

[Details](#)

- Board: WBBSE

PERSONAL PROJECTS

Stress level Detection of Human Being Using CNN Method (2021 - 2021)

- Multi class stress level classification and tecton of stress level of human-being.Stress can be recognised by observing changes in physiological responses on the human body. Wearable sensors for stress detection are becoming more prominent in recent years due to their functionality and non-intrusive nature. By utilising data from wearable sensors, we have developed a personalized stress level detection system. Our system performs classification on stress level using multimodal data from chest-worn device "RespiBAN Professional" wearable sensor. We implemented CNN classification algorithms used five-class stress level classification conditions: stress level 1, stress level 2, stress level 3, stress level 4, stress level 5.

library Management System (Using MVC Framework) (01/2022 - 02/2022)

- As a librarian I should be able to add new books, update book details, remove a book. add a new customer. assign a borrowed book to a customer. view customer's borrowing history.
